

To Whom It May Concern:

It has come to my attention that the Christian radio station Airl might be taken away from my local radio station. I am writing to you to ask to reconsider this matter because Airl is not only a great station to get alternative Christian music, but also because it is probably only one of a very few stations out right now which puts positive music with positive lyrics as their priority. Teens and young adults are more involved with finding meaning in their lives now more than ever especially with what's going on in the world, and it would be a shame if a station like Airl is taken away. Thank you for your time!

Glenda
